
SPS- 1 UW - almost brand new - for sale - Dublin

Posted by Sifi - 2005/11/01 12:05

Hi,

It is with some regret that I have decided to sell my Machinedrum. I am simply not making the most of this beast. When I do it is inspiring, but I need to upgrade my PC, so I have reluctantly decided to put it up for sale. It is only a few months old and I can honestly say I have switched it on maybe 15-20 times since I bought it. (It is an upgrade from the SPS-1).

It is in perfect new condition. It still has the plastic sheet on the display. I have the box, manuals, power adapter etc.

I am based in Dublin, Ireland. I will accept ?1,250 plus shipping plus paypal or any bank fees to transfer funds. This is a ?340 Euro saving for a practically brand new machine (less shipping).

You can mail me at simonfine {AT} eircom {DOT} net.

Thanks.

Simon.
