EDIT:

Tracked one down, it's on it's way now! Fill this thread with musings on 12 voices of Monomachine madness.

So, I realized I really can't live any longer without a monomachine KB :D

Anyone up for a straight up trade for a nord Modular G2, with gig bag?

Let me know!

/Michael

Re: Looking to trade - My Nord Mod G2 for your SFX-6 Monomachine KB

Hmmm...this is sort of tempting...I will consider it...I'll probably have to sleep on it for a day or two....

very cool!

let me know, this is the only place I've posted it, and it's not a gigantic priority, so it's up for grabs :D

Heheh, I posted over at HC-KSS to gather some opinions ;)

Just to be up front, I'm leaning towards a no on this one, so don't wait up for me...but I might drift the other way as I chew on it more...

it's all good :D I just replied over there too to be a spazz.

I just don't hardly use the poor little guy enough to warrant it, and I use the monomachine daily, so it's either I sell on the G2 and buy an SFX-6, or do a swap.

I'll give you \$50 and an egg sandwich for the G2.

=====
