## WTS: Some stuff

edited as I've tracked down an sfx-6 :D

Looking to sell (would prefer to keep it local to NYC, but can ship if noone local calls dibs)

Roland MC-202- Functionally in great shape, no scratchy pots, everything appears to work as spec'd, but I really never delved too deep into the sequencer so I can't vouch for it ;) - cosmetically its ok but an owner somewhere down the road wrote the note names above some of the buttons. Some could say that's an added feature - learn music theory on a roland groovebox! Fun for the kids! Looking to get \$275 OBO for it.

---

Future Retro Revolution - serial number 93, I love it to absolute death but I just don't use it enough to warrant it. Bought new for \$699, will let it go for \$600. In as new shape.

---

Dave Smith Evolver Tabletop - bought used, so no manual and no box, but cosmetically and functionally perfect. Will let it go for \$400 OBO.

---

Yamaha CS-15 - Another love affair - this board is one of my favorites, but it needs some TLC. There are some issues with the filter tracking, and it definitely needs some cleaning. Cosmetically it's in good shape, but internally it needs to be checked out. It does work, but there are some "huh" moments when it just acts a bit wonky. This one is a fixer upper but it will definitely pass audio and most features work AOK. I know these have been going for close to \$500 on ebay of late, I'll let it go for \$400 OBO.

---

Roland SH-09 Keyboard - in great shape, with original Roland hardcase (AWESOME for gigs - mad scientist roland case ahoy!) Very little to no cosmetic damage on the board, but it's a little scratchy on the volume pot in one spot - never caused me any distress) - looking to get \$475 for the board+case - firm on this as I'm not 100% ready to sell it but with an SH-101 in the house it's a bit redundant.....

Oh - all located in beautiful Queens, NYC!

Trades I'd be interested in: Effects units, analog delays, try me!

Drop me a line with trade offers or price/condition, - mweeks (at) endmusik.com
