
MPC-1000 for \$420!!!

Posted by cchocjr - 2006/10/08 08:17

I just spotted a used MPC 1K on instrumentexchange.com in good, used condition with a 'buy it now' price of \$420! I REALLY want to get it, but I know that I can wait and that there are other items I'd rather save up for. I thought that I'd bring this to the forum's attention so that someone in our special club could take advantage of the lowest price for an MPC that I've ever seen.

Buy it so that I don't have to!
