
MnM and Yamaha RS7000

Posted by glaive - 2005/01/13 19:18

Has anyone here played with slaving the RS to the MnM, and putting them both in Song Mode? I need to mess with it and see if the RS will loop when the MnM loops.

No.

But the RS7000 and a MachineDrum?

Ohhhhhhhhhh yeah!!!!!!

A tutorial is in the final draft stages....

Best,
Rusty

I'm looking forward to seeing that. We should alert the Yahoo RS group, as well as rs7000.org. I'd think that much of the tutorial will apply to the MnM. Once I get my setup solidified, I'll write something, too. We can host example files here, too. Templates for both the RS and the MnM (or MD) would be useful.
