## FS: OP-1, Juice Goose 8.0 & 8.0L, Lexicon MX 400

Posted by xibalba - 2013/09/18 05:06

---

Moved to all software been using ableton, native instruments and my ipad 1 alot lately so i think im done with hardware :O

Located VA 23452 all prices include shipping and paypal

\$700 Teenage Engineering - OP-1 Bought brand new July 31st at B&H comes with all of the original stuff box, rubber bands, usb cable, plastic layover. Unit functions fully. I can include a copy of the receipt and will of course assist in any warranty issues if need be until the warranty expires.

\$60 Juice Goose 8.0L Power Conditioner - Has 8 plugs each with enough room for a wall wart the 8.0L has two slide out lights.

\$40 Juice Goose 8.0 - Same as 8.0L without the lights

will sell both as a package for \$80 shipped

\$200 Lexicon MX 400 Effects Unit - Has tons of reverb settings and other effects (detune, chorus, compression etc) has lots of ways to route the effects and even has an editor for PC & Mac connected via USB.

\$30 Korg Nanokontrol - USB Midi Slim Controller this is the first edition. Comes with manual, usb cable and nanokontrol.

\$90 - Novation Launchpad - bought brand new on amazon, comes with Box, usb cable, disk, paperwork and launchpad.

and something out of left field.

\$70 - Logic Studio 8 Upgrade - this is the edition to upgrade from Logic Express 6 - 8. You must have one of those in order to use this software. Not academic, this is the full version once you upgrade. Comes with everything but the slipcover that goes over the box.

As far as trades go I am looking for an ipad 3 or 4 16 or 32gb. We would have to do an even trade or cash on your end. As I cannot add cash to anything I have.

Thanks For Looking!

Will post pics later feel free to ask me anything.

I'll have to think about it, but I couldn't do a straight trade.

was thinking around \$360 on top basing it on the recent prices on ebay which range around 280-400 plus including the fact that mine still has 10 1/2 mths of warranty left on it. which of course as i stated will gladly help in anyway in regards to the warranty.
