
KORG MINIPOPS 120+YAMAHA RX11 AS A GIFT

Selling a very rare vintage analog drum machine from the 70's by KORG MINIPOPS 120, Jean Michele Jarre sound style drum machine. It's in great, really preserved for its years fully working condition, a slight noise coming out of the balance knob only when tweaking it, but nothing bad, a slight one. Will throw in a vintage digital drum machine from the 80's by YAMAHA RX11 as a gift, fully working, just has a tiny issue with the volume slider, here's the eBay link to the auction:
