
Monomachine SFX-60 for sale

Posted by chiasticon - 2005/09/22 00:47

I love this baby to death, but I've got the SFX-6 as well. and though having them both is awesome, it's just a *bit* too superfluous for me right now.

asking \$1100 + shipping. it's in 100% perfect condition, only taken out of the studio a few times, and always kept in a hard Pelican case (not included) when it was. and it was formerly owned by our very own Elektron-Users creator, Glaive...so you know you want it! :-)

pictures available upon request. I'll be putting it up on eBay next week if nobody here shows interest.
